

the family sooner than the owners of the farms would have liked. It means small-business owners like Joe may have problems passing their business off to a child or somebody they choose to pass their business off of.

We put it on its way to extinction. Unfortunately, the law—the rules of the Senate are such that after 10 years from the time of the passage of the bill, they could conceivably come back. For the sake of certainty, for the sake of fairness, the Congress needs to make all the tax reliefs not only happen now but to make sure the tax relief is permanent.

I also believe we ought to end the double taxation on dividends in America as well. Dividends are important for our seniors. Many seniors rely upon dividends to help them in their later years. Ending the double taxation on dividends will encourage capital to flow into our markets. Capital equals jobs. Ending the double taxation on dividends makes the Tax Code more fair.

Let me talk to you about one aspect of what I mean when I talk about helping seniors. More than 40 percent of the people who receive dividends make under \$50,000 a year. Many of them are seniors. Three-fourths of the people in America who receive dividends make less than \$100,000 a year. Dividends help our fellow citizens deal with their retirement years.

Dividends are a part of the savings of America. Double taxation of dividends deprives people of needed money. It has bad effects. The average savings for somebody 65 years and older, if we get rid of the double taxation on dividends, will be \$936 per year per tax return in America. Getting rid of the double taxation of dividends helps Americans from all walks of life.

When this tax plan is passed—and I expect Congress to hear from the American people and pass it—we will be putting \$70 billion in the economy over the next 16 months. That's how to make sure this economy is growing jobs so people can work. That's important. It's called stimulative effect.

The Council on Economic Advisers said these proposals over the next 3 years will create 2.1 million jobs, and that's important. This is a commonsense plan that trusts the people with their own money, that recognizes that—that there are ways and things we've

got to do to make sure this economy is growing.

Part of making sure our economy is strong is more money in your pockets. Part of making sure the deficits don't balloon is for Congress to hold the line on spending, and I expect them to be wise with your money.

I mentioned early on that I recognize there are hurdles, and we're going to achieve those hurdles. There's no doubt in my mind we will, because of the nature of this country. The entrepreneurial spirit in America is strong. Look right around you, right here in JS. It's one of the things that makes us a great nation. There are thousands of Americans from all walks of life who are realizing their dream of owning their own business, and that's incredibly positive. And the Government can help create an environment where that makes—is more possible.

There are thousands of our fellow citizens who are loving their neighbor just like they'd like to be loved themselves. That doesn't require a Government program. It requires answering a higher calling. The compassion of this country runs deep in our soul, and there are thousands of Americans who are willing to serve overseas in the name of peace and liberty. If you've got a relative in the United States military, the Commander in Chief is proud of their skills, proud of their service, and proud of their commitment to peace and freedom.

May God bless you all, and may God bless America.
